

induction Automated Annealing System

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.uihm.com>

UIHM Induction offers seam annealing of tube welds and full body annealing of both magnetic and non-magnetic tube products. We also provide integrated induction annealing solutions for steel strip and wire production.

The right heat in the right place reforms the material structure and reduces internal stresses in just the way you want.

UIHM induction annealing machines are designed to be used for Normalising, Stress relieving and Process
