

ultra high frequency induction brazing works

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering, induction melting and induction surface treatment applications
<http://www.uihm.com>

Ultra high frequency (>400KHz) induction heating technology are widely used in brazing tiny workpiece, it can also be used for quick brazing or jointing work as high frequency brings a faster heating speed.
