

8 turns induction coil for melting platinum

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering, induction melting and induction surface treatment applications
<http://www.uihm.com>

This coil has 8 turns, it is 53 and O,D.67 and it is used for melting platinum.

This coil need transformer with 2 turns on secondary.

8 turns induction coil with 2 turns secondary coil for melting platinum
