

air cooling induction coil system

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications

air cooling induction coil system

Some special applications need air cooling induction coil as they need a slow heating speed and low temperature, another advantage of air cooling induction coil is that one coil can suit for different shape workpiece.
