

induction heating L shape steel with L shape induction coil

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.uihm.com>

Objective: quick induction heating L shape steel for

Material: stainless steel

Temperature: 800 °C

Frequency: 60 KHz

Equipment: UM-40AB-HF

Results/Benefits: Induction heating provides:

- Minimal contamination of conductive material during manufacturing
- Quick heating speed
- Even distribution of heating

induction heating L steel workpiece
