

difference between high frequency and medium frequency heating

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.uihm.com>

High frequency heat the workpiece from outer to inner, medium frequency will bring an equal heating.

High Frequency

Medium Frequency
