

High frequency induction evaporation coating and painting Silica-plated

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering, induction melting and induction surface treatment applications
<http://www.uihm.com>

Our UM-60AB-HF high frequency induction heating machine can be used for induction evaporation coating and induction painting Silica-plated, it will bring a quicker speed and safe work environment.

High frequency induction evaporation coating (IGBT-50KW-30KHz-10Sets)

induction painting Silica-plated
