

Twin coils for induction hardening axle

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.uihm.com>

This video is application of hardening axle by UM-20AB-UHF High Frequency (>100KHz) induction heating machine with twin induction coils (double heads), this bring a high quality and fast speed hardening work.
